THE SENSORY SIDE OF NOOK PODS

Sensory Nooks are personal mobile sensory support pods. They have been designed by **sensory specialists** AmbiSpace Ltd & Nook Wellness Pods to provide an easy affordable way to help people with special needs and disabilities survive everyday public places.

How they do this is by **reducing sensory overload** from the wider environment. They create a controllable capsule in which neurodiverse individuals can self regulate and function to the best of their individual ability.

Public places can become totally overwhelming for people with special needs, creating sensory overload, anxiety, personal crisis situations and ultimately meltdown.

These clever little mobile Nooks provide a **safe space** that avoids isolation and **reduces challenging behaviour**.

THE PRACTICAL SIDE OF SENSORY NOOK

Sensory Nook takes the wonderful **holistic benefits of Nook Pods** and adds a range of interactive and passive **sensory modules** for seamless integration.

They are highly supportive of neurodiversity and provide a calming **sensory refuge** for people of all ages with Special Educational Needs and Disabilities (SEND).

They are a flexible way to **increase accessibility and inclusion** in schools, care homes, sports arenas, libraries, diners, shopping malls, medical waiting rooms, leisure venues and most public places.

Sensory Nook is not only an effective provision for people with special needs but it is an **actively calming system** that supports the well-being of everyone.

A CERTIFIED RESOURCE

Sensory Nook provides:

- Robust easy clean space for supporting SEND
- Gives a sense of security & comfort
- Reduces uncontrollable sensory stimulation
- Provides a controlled sensory environment
- Significantly reduces ambient noise levels
- Colour wash lighting positively alters mood
- Sensory tools engage, provide focus, positively stimulate & calm
- Knowing Sensory Nook is nearby reduces anxiety
- Sensory Nook improves accessibility
- Sensory Nook is inclusive

sensory
NOOK[®]

A noise reducing
sanctuary with
controllable lighting
to influence mood
& support hidden
disabilities.

An affordable,
practical & discrete
way to provide
inclusive learning
support.

SENSORY NOOK **SUPPORT**

Sensory Nook Support is an instant & flexible
well-being provision for everyone.

INCLUDES:

- NOOK QUIET SANCTUARY,
TABLE & BENCH SEATS
- RGBW COLOUR CHANGE LIGHT WITH
FIXED TOUCH CONTROLLER
- FIBRE OPTIC CARPET WALL PANEL
WITH TWINKLING LIGHT EFFECT

This is the ideal supportive workspace, empowering occupants to focus and deliver their best work more efficiently.

It provides a functional respite area actively helping people experiencing sensory overload to lower anxiety levels and recharge their resilience to cope with everyday pressures. **For 1-4 persons.**

Proactive
intervention and
positive distraction
for people who
need controllable
stimuli to re-
balance sensory
overload from the
wider environment.

Added SEN tools for
sensory engaging
learning.

SENSORY NOOK INTERACTIVE

Sensory Nook Interactive is an actively stimulating mobile sensory pod.

INCLUDES:

- NOOK QUIET SANCTUARY
- INTERACTIVE LED LIGHT TUBE
- 9 BUTTON WIRELESS CONTROLLER
- INTERACTIVE WALL PANEL (CHOICE OF: INFINITY MIRROR, SOUND TO LIGHT, SNOWFALL OR COLOUR BLEND)
- UV FIBRE OPTIC STRANDS
- FIBRE OPTIC TWINKLE WALL CARPET
- MIRROR PANEL

This interactive sensory pod provides cause and effect feedback for stronger engagement and active distraction from outside elements.

The interactive wall panels offer a range of enhanced sensory features that have been expertly created to support special needs education. The overall calming effect of the Sensory Nook Interactive ensures learning remains fun, engaging and manageable. **For 1-2 persons.**

Proactive sensory space with room to move around, stretch out and relax.

The larger seat area enables carers and educators to sit comfortably alongside the user and guide the engaging sensory experiences.

SENSORY NOOK INTERACTIVE^{XL}

Sensory Nook Interactive^{XL} is an actively stimulating mobile sensory pod with extra space for relaxing.

INCLUDES:

- NOOK QUIET SANCTUARY 1.2M DEPTH
- INTERACTIVE LED LIGHT TUBE
- 9 BUTTON WIRELESS CONTROLLER
- INTERACTIVE WALL PANEL (CHOICE OF: INFINITY MIRROR, SOUND TO LIGHT, SNOWFALL OR COLOUR BLEND)
- UV FIBRE OPTIC STRANDS
- FIBRE OPTIC TWINKLE WALL CARPET
- FULL HEIGHT
- VIBRATING FLOOR PAD

This deeper **interactive** sensory pod provides more space and a greater sense of calming encapsulation for a more powerful sensory experience.

The full height fibre carpet and vibrating floor pad add a visual, tactile and haptic sensory element for faster calming and anxiety relief. **For 1-2 persons.**

With a footprint of 2m x 1.5m this is a highly effective sensory pod for unobtrusive inclusion.

With the screen open or closed it wraps around the occupants soothing and protecting from sensory overload.

SENSORY NOOK INTERACTIVE^{XXL}

Sensory Nook Interactive^{XXL} is a spacious mobile sensory pod with a retractable screen for a comforting sense of enclosure.

INCLUDES:

- NOOK QUIET SANCTUARY **1.5M DEPTH**
- INTERACTIVE LED LIGHT TUBE
- 9 BUTTON WIRELESS CONTROLLER
- INTERACTIVE WALL PANEL (CHOICE OF: INFINITY MIRROR, SOUND TO LIGHT, SNOWFALL OR COLOUR BLEND)
- UV FIBRE OPTIC STRANDS
- **FIBRE OPTIC TWINKLE WALL CARPET**
- **FULL HEIGHT**
- **VIBRATING FLOOR PAD**
- **PRIVACY PULL ACROSS SCREEN**

The **Interactive^{XXL}** adds sensory stimulation with extra space and privacy for proactive calming and relaxation.

The sensory wall panel and light tube provide two interactive cause and effect zones, while the full width pad provides space for stretching out and enjoying the soothing effects of the built in vibration. **For 1-3 persons.**

With a footprint of 3.6m² and packed with sensory technology this is a powerful, space efficient sensory room alternative.

Close the screen and feel deeply immersed in a fully controllable sensory environment.

SENSORY NOOK INTERACTIVE^{XXXL}

The "room within a room" complete sensory solution for when you are short on space but high on need.

INCLUDES:

- NOOK QUIET SANCTUARY **1.8M DEPTH**
- INTERACTIVE LED LIGHT TUBE
- 9 BUTTON WIRELESS CONTROLLER
- INTERACTIVE WALL PANEL (CHOICE OF: INFINITY MIRROR, SOUND TO LIGHT, SNOWFALL OR COLOUR BLEND)
- UV FIBRE OPTIC STRANDS
- **FIBRE OPTIC TWINKLE WALL CARPET**
- **FULL HEIGHT**
- **VIBRATING FLOOR PAD**
- **RGBW COLOUR CHANGE LIGHTING WITH CONTROLLER**
- **PRIVACY PULL ACROSS SCREEN**

A multi-sensory experience, adaptable to meet a wide range of individual needs and preferences.

Explore the interactive elements or relax in a proactively calming space. This is a greater place to bring the joy of reading alive with lighting control and vibration adding special effects. **For 1-4 persons.**

sensory
NOOK[®]

An oasis of calm in which to escape, reduce anxiety levels and bring crisis situations under control.

SENSORY NOOK **ESCAPE**

Sensory Nook Escape provides a closed in space that gives a sense of security and calm.

INCLUDES:

- NOOK QUIET SANCTUARY
- FIBRE OPTIC TWINKLE CARPET WALL & ROOF PANELS
- VIBRATING FLOOR PAD
- UV FIBRE OPTIC STRANDS
- PRIVACY PULL ACROSS SCREEN

Public places can become totally overwhelming for people with special needs, particularly those with autism. This is a major barrier to inclusion.

This Sensory Nook provides a discreet closed in space that reduces excessive sensory input and provides an emotionally secure and calming place to regain balance and self-regulate. This enables people to attend in confidence and stay for longer. **For 1 person.**

Multi-sensory pod
for maximum
inclusivity.

A fully controllable
mobile instant mini
sensory room.

SENSORY NOOK INCLUSIVE

Sensory Nook Inclusive is designed to engage and calm individuals with special needs.

INCLUDES:

- NOOK QUIET SANCTUARY WITH BENCH SEATS
- APP CONTROL SYSTEM
- RGBW COLOUR CHANGE LIGHTING WITH CONTROLLER
- BLUETOOTH SOUND SYSTEM
- INTERACTIVE LED LIGHT TUBE
- 9 BUTTON WIRELESS REMOTE
- UV FIBRE OPTIC STRANDS
- FIBRE OPTIC TWINKLE WALL CARPET
- VIBRATION SEAT CUSHION
- MIRROR PANEL

This mobile multi-sensory pod supports a broad spectrum of disabilities and special needs. It is an incredibly powerful mini sensory room alternative that provides visual, tactile, and audio sensory stimulation & calming. The combination of interactive & passive features provides positive sensory distraction and engagement for everyone.

The tablet app controls are intuitive and simple to use and ensure a fully bespoke personal experience every time to meet precise individual needs. **For 1-3 persons.**

UV light has a powerful calming effect to de-escalate anxiety and promote relaxation.

The UV reactive elements fluoresce brightly to engage and support occupants with visual impairments.

SENSORY NOOK ULTRA-VIOLET

The Sensory Nook UV creates a traditional darkroom sanctuary for active calming and visual stimulation.

INCLUDES:

- NOOK QUIET SANCTUARY 1.2M DEPTH
- INTERACTIVE LED LIGHT TUBE
- 9 BUTTON WIRELESS REMOTE
- FIBRE OPTIC TWINKLE WALL CARPET
- UV REACTIVE TWINKLE WALL CARPET
- UV REACTIVE ACTIVITY BOARD
- UV LIGHTING SYSTEM
- UV FIBRE OPTIC STRANDS
- PRIVACY PULL ACROSS SCREEN

Sensory Nook UV has been created for maximum proactive calming and stimulation for visual impairment.

It is a powerfully supportive environment for specialist therapies or to help with relaxation in busy environments. The extra space and privacy screen create a comfortable space in which to recharge and self-regulate. **For 1-2 persons.**

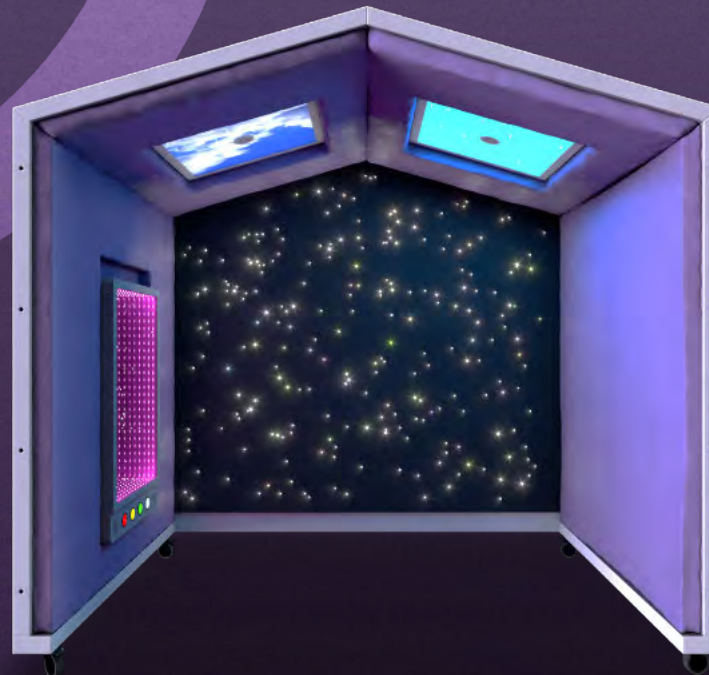

sensory
NOOK[®]

A truly versatile
space for flexible
inclusivity.

Ask about our
range of beanbags,
floor pads and
retractable privacy
screen to maximise
Sensory Nook
Shelter's inclusive
potential.

SENSORY NOOK **SHELTER**

The Sensory Nook Shelter is a wheelchair accessible
interactive mobile sensory pod.

INCLUDES:

- NOOK SHELTER SANCTUARY 1.2M DEPTH
- FIBRE OPTIC TWINKLE WALL
CARPET FULL HEIGHT
- 2X RGBW COLOUR CHANGE
LIGHTING WITH CONTROLLER
- INTERACTIVE ACTIVITY PANEL
(CHOICE OF: INFINITY
MIRROR, SOUND-TO-LIGHT,
SNOWFALL OR COLOUR BLEND)
- BLUETOOTH SOUND SYSTEM

A mobile sensory pod for mobility impaired people. Engaging interactive technology for stimulation and focus, colour change lighting to influence mood, bluetooth sound system for individual playlists and calming tactile fibre optic wall carpet for relaxation.

The Sensory Nook Shelter wraps around wheelchair users to give them accessible high quality sensory support. **For 1 wheelchair user.**

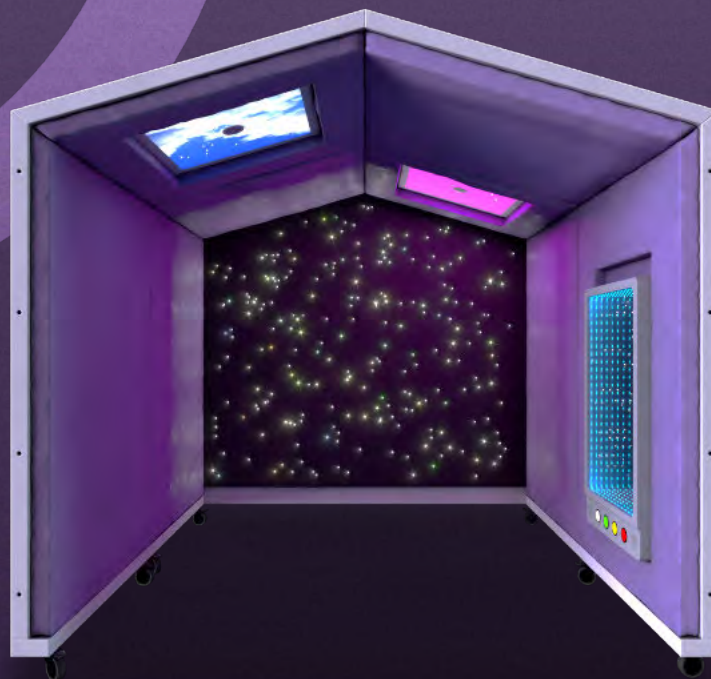

A larger versatile space for flexible inclusivity.

Ask about our range of beanbags, floor pads and retractable privacy screen to maximise Sensory Nook Shelter^{XL}'s inclusive potential.

SENSORY NOOK SHELTER^{XL}

The Sensory Nook Shelter^{XL} is designed to be more accessible to users of larger wheelchairs.

INCLUDES:

- NOOK SHELTER SANCTUARY 1.8M DEPTH
- FIBRE OPTIC TWINKLE WALL CARPET FULL HEIGHT
- 2X RGBW COLOUR CHANGE LIGHTING WITH CONTROLLER
- INTERACTIVE ACTIVITY PANEL (CHOICE OF: INFINITY MIRROR, SOUND-TO-LIGHT, SNOWFALL OR COLOUR BLEND)
- BLUETOOTH SOUND SYSTEM

A larger mobile sensory pod for mobility impaired people. Engaging interactive technology for stimulation and focus, colour change lighting to influence mood, bluetooth sound system for individual playlists and calming tactile fibre optic wall carpet for relaxation.

The Sensory Nook Shelter wraps around wheelchair users to give them accessible high quality sensory support. **For 1-2 wheelchair users.**

SENSORY NOOK SPECIFICATIONS

Nook Pods are ergonomically designed to create inviting, safe personal spaces without isolation.

They actively reduce noise from the wider environment to protect & provide respite for the people inside.

Locking castors provide mobility and security when in place. They can be removed at installation for a fixed Nook Pod. Sensory Nook requires a single plug socket to power on.

SENSORY NOOK PRIVACY SCREEN FOR ENHANCED SERENITY

Sensory Nooks are designed to create an oasis of calm for people who need to self-regulate in what can feel like a chaotic out of control world.

The new **Privacy Screen** forms a barrier to the outside environment for an even more effective sensory calming experience.

It fixes securely to the side of the Nook Pod and retracts smoothly to one side when not in use for neat space efficient storage.

Privacy: Creates a truly personal space for effective self-regulation.

Retro-fit: Can be added to all existing Nook Pods as a serenity upgrade.

Personalisation: We can print your screen with customised branding & theming.

Space efficient: Your Nook footprint remains the same due to our clever slide and retract design.

FEATURES & BENEFITS

Did you know you can customise your Sensory Nook with our range of additional optional extras? Simply let us know when you place your order and we will add it to your quote...

Colour Change Lighting

Provides mood influencing illumination, allowing users to tailor the environment to their precise needs. With an easy-to-use controller, it's a controllable feature that actively supports sensory experiences, making the Sensory Nook a versatile and engaging space for users of all ages and preferences.

9 Button Wireless Remote

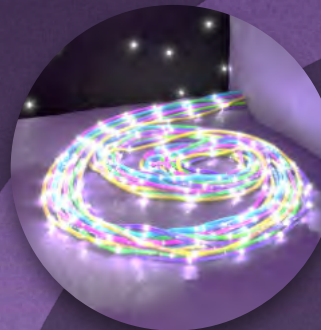

A rechargeable and wireless device, offering convenient control of the Interactive Light Tube and other Interactive Panels in the Sensory Nook. Its hands-on interaction promotes greater inclusion for users of all abilities, with an oval shape designed for comfortable handling. Plus, its robust build ensures durability, making it a reliable and user-friendly tool for enhancing the sensory experience in the Sensory Nook.

Fibre Optic Twinkle Carpet

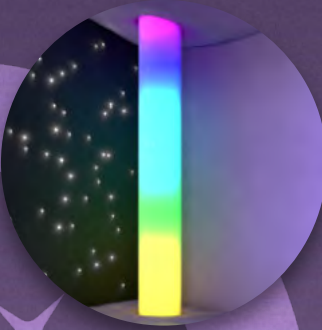

Offers a tactile experience, inviting users to touch and engage with its textured surface. Visually gently stimulating, it captivates with twinkling lights that provide a calming effect, fostering relaxation and sensory exploration. Additionally, it contributes to the Sensory Nook's sound dampening, creating a quieter and more peaceful space for users.

UV Fibre Optic Strands

Provide a tactile experience, inviting users to touch and explore their textured surface. These colourful strands emit a calming, twinkling glow, creating a soothing ambiance. Additionally, they're suitable for providing weighted pressure, offering sensory input that can help users feel grounded and relaxed, making them a versatile and engaging addition to the Sensory Nook.

Interactive LED Light Tube

Boasts 16 unique modes, offering a wide range of visual experiences that can either stimulate or provide calming effects, depending on user preferences. With sound-responsive modes, it serves as a valuable tool for moderating or encouraging vocalisation, enhancing the Sensory Nook's interactive capabilities. Furthermore, it's a maintenance-free and silent alternative to the traditional bubble tube, ensuring a hassle-free and peaceful sensory environment.

Vibrating Padding

These cushions provide haptic stimulation, enhancing sensory experiences and promoting engagement. They are particularly useful in sensory integration therapy, aiding in sensory processing and regulation. If used in a seat pad, it encourages users to sit more deeply into their seat, helping reduce tension in the legs and back, contributing to better posture and comfort. Additionally, the vibrations these pads provide help reduce muscular tension for most users, promoting general wellness and relaxation.

FEATURES & BENEFITS

Interactive Infinity Panel

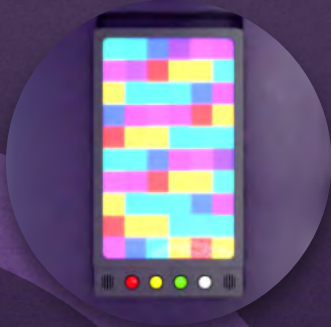

Captivates with its mesmerizing moving light patterns, offering a visually engaging and calming sensory experience. It can be used passively to create a tranquil ambiance or interactively for user engagement. With in-built robust user controls, it's easy to customise the experience, and the inclusion of soundtracks adds an extra dimension, enhancing the sensory journey within the Sensory Nook.

Interactive Colour Blend Panel

A stimulating and educational way to learn about colours and their mixing. Preloaded with a selection of patterns and colours, it engages users in a visually rich experience. Users can also select from preloaded soundtracks, enhancing the multi-sensory aspect. With robust user controls, it's easy to personalize the experience, making it an engaging and versatile tool for both learning and sensory exploration.

Interactive Rhapsody Panel

A dynamic addition to the Sensory Nook. It transforms sound into reactive light patterns, providing a multi-sensory experience that can both engage and calm users. Its interactive nature allows users to actively participate, fostering sensory exploration, while its in-built robust user controls make customisation easy. With the ability to respond to sound, it adds an extra layer of engagement and is a valuable component for creating an immersive sensory environment.

Safety Mirror Panel

Enhances the Sensory Nook by creating the illusion of more space, reflecting sensory equipment to boost stimulation, and providing a comfortable avenue for individuals who find direct interaction challenging. It encourages curiosity, allowing users to indirectly observe and interact with the wider world whilst ensuring a sense of security within the Nook.

Interactive Snowfall Panel

Creates a mesmerizing experience with artificial snow falling in front of a mirror, illuminated by colour-changing LED lights. Its robust user controls allow for customization, enhancing the sensory journey within the Sensory Nook. Additionally, the option to select soundtracks, including white noise, a vacuum cleaner, and a washing machine, demonstrates a thoughtful approach to supporting neurodiversity by catering to a range of sensory preferences and sensitivities, making it a versatile and inclusive addition to the Nook.

Picture Light Tiles

Display printed images on a colour changing light panel, allowing for dynamic, mood-enhancing lighting effects. Any image can be printed, making it highly customisable to suit different preferences and themes. Like colour change lighting, these panels provide the same benefits of creating a soothing atmosphere, enhancing the mood, and supporting a range of sensory needs.

FEATURES & BENEFITS

Privacy Screen

The screen can be pulled across to provide privacy, effectively blocking out the wider environment for a more focused sensory experience. It also contributes to sound dampening, creating a quieter and more serene space. The ability to print any image or design on the screen allows for personalisation and aesthetic customization. Moreover, it's retro-fittable to all Sensory Nook models, ensuring accessibility and flexibility in implementation. Inclusivity is a key feature, as it caters to a diverse range of users' needs for self-regulation.

Bluetooth Sound System

Provides a wireless and hassle-free audio solution, enhancing the auditory component of the sensory journey. This sound system is a valuable addition, offering high-quality sound to complement visual and tactile stimuli, creating a more immersive sensory environment. Whether it's calming music, interactive sounds, or educational content, this system enriches the overall Nook experience, adding an extra layer of engagement and sensory stimulation.

Interactive App Control System

Users can easily toggle sensory equipment on/off, offering convenient control at their fingertips. This intuitive system ensures reliable management of the Nook, enhancing user experience. Moreover, it seamlessly integrates with interactive equipment, enabling control of the experience from both inside and outside the Sensory Nook to engage users who are attracted to technological input and for carer lead guided therapy sessions.

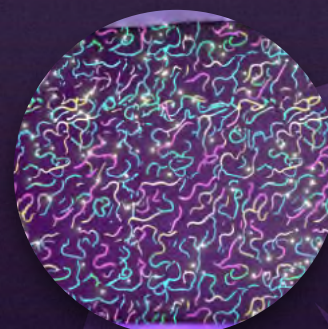

UV Reactive Activity Board

Provides a wireless and hassle-free audio solution, enhancing the auditory component of the sensory journey. This sound system is a valuable addition, offering high-quality sound to complement visual and tactile stimuli, creating a more immersive sensory environment. Whether it's calming music, interactive sounds, or educational content, this system enriches the overall Nook experience, adding an extra layer of engagement and sensory stimulation.

UV Lighting System

UV lighting adds a unique dimension by brightly illuminating UV-reactive elements in the Nook, creating visually stimulating and dynamic effects. It can enhance the sensory experience by making certain elements, like UV fibre optic strands, stand out more vividly. UV lighting has a powerful calming effect to promote relaxation and in combination with a privacy screen gives a traditional sensory dark room effect.

UV Fibre Optic Twinkle Carpet

Offers a tactile experience with its textured surface, inviting users to touch and explore. Under UV lighting, the exciting patterns transform into a visually captivating display with twinkling lights, enhancing sensory stimulation. Users can engage with both the tactile and visual elements, creating an immersive and multi-sensory experience. With its UV-reactive properties, it adds an extra layer of enchantment and engagement within the Sensory Nook.

FROM 10 MINUTES TO 2 DAYS ...

“When you go to a music festival with three autistic children you do wonder if you will last more than ten minutes. Thanks to Sensory Nook being at Wonderfest we lasted two days!

All three of my children visited their area but my nearly seven year old daughter especially made them her safe place for the weekend.

On day two she had a meltdown and started running ... she kept running straight across the field and straight into one of the Sensory Nook's! She laid down for around twenty minutes amongst the lights, no talking and managed to re-regulate herself. Normally in that situation it would have been game over for us and home time – This allowed us to continue on for a while longer.

All schools should have one of these and I'm going to grovel with both of the special needs schools that my children attend and see if we can fundraise for one, now having witnessed how instantly helpful they are! Thank you Sensory Nook! It was an absolute godsend for us!”

Michaela - A visitor to Wonderfest

RELIEF FROM ANXIOUS WAITING

DIANA, PRINCESS OF WALES HOSPITAL NORTH EAST LINCOLNSHIRE

THE CHILDREN'S DEVELOPMENT CENTRE

"We are having more face to face appointments again and so the Sensory Nook is often being used when children are waiting to be seen or in between appointments as some children maybe waiting for a procedure. The children use it as a distraction space and a bit of entertainment!"

Katie - Health Tree Foundation

Scan below with your phone camera
to listen to the BBC interview

SUPPORT FOR STUDENTS

“The Sensory Nooks are great spaces and work well for that time away from the classroom and others. Students have really enjoyed the space to sit and talk, it has a safe and confidential feel”

Woodley School and College

INCLUSIVITY IN LIBRARIES

“When we discovered the Sensory Nook Interactive, it fitted all our needs. It is self-contained and has a range of sensory options that children can choose to interact with to distract from other things happening nearby or can simply be used as a relaxing space - this dual purpose is perfect for our library which has a high footfall. We can now offer a better, inclusive library experience to all children, including those with additional needs.”

Tiverton Library

ACCESSIBLE TRAVEL FOR ALL

Step into serenity in the assisted travel lounge, nestled within the heart of Piccadilly Train Station's assisted travel lounge. Designed for passengers with unique sensory needs, it's a peaceful retreat in the midst of a bustling train station to ensure the journey is as comfortable as it is memorable.
